How to receive care:

With Select Care Copay 1000 Hybrid, you can choose to get your care from doctors, specialists, hospitals and health care facilities in the Select Care network. You can be seen at physician practices, community hospitals and medical facilities across Massachusetts and Southern New Hampshire, giving you a wide choice of health care providers. For a complete list of Select Care providers, visit the "Find a Doctor" tool on Fallonhealth.org.

Choosing a primary care provider (PCP)

Your relationship with your PCP is very important because he or she will work with Fallon to provide or arrange most of your care. As a member of Select Care Copay 1000 Hybrid, you must select a PCP. To do this, just complete the section on your Fallon membership enrollment form. If you need help choosing a PCP, please visit the "Find a Doctor" tool on Fallon.org or call Customer Service.

Obtaining specialty care

When you want to visit a specialist, talk with your PCP first. He or she will help arrange specialty care for you. The following services do not require a referral when you see a provider in the Select Care network: routine obstetrics/gynecology care, screening eye exams and behavioral health services. For more information on referral procedures for specialty services, consult your *Select Care Member Handbook/Evidence of Coverage*.

Emergency medical care

Emergency services do not require referral or authorization. When you have an emergency medical condition, you should go to the nearest emergency department or call your local emergency communications system (police, fire department or 911). For more information on emergency benefits and plan procedures for emergency services, consult your *Select Care Member Handbook/Evidence of Coverage*.
