Chapter 6: *What you pay for your Part D prescription drugs* explains the three cost-sharing tiers for your Part D drugs and tells what you must pay for a drug in each cost-sharing tier.

Section 5.2	A table that shows your costs for a one-month supply of a drug
--------------------	---

During the Initial Coverage Stage, your share of the cost of a covered drug will be a copayment.

- **“Copayment”** means that you pay a fixed amount each time you fill a prescription.
- **“Coinsurance”** means that you pay a percent of the total cost of the drug each time you fill a prescription.

As shown in the table below, the amount of the copayment depends on which cost-sharing tier your drug is in. Please note:

- If your covered drug costs less than the copayment amount listed in the chart, you will pay that lower price for the drug. You pay either the full price of the drug or the copayment amount, whichever is lower.
- We cover prescriptions filled at out-of-network pharmacies in only limited situations. Please see Chapter 5, Section 2.5 for information about when we will cover a prescription filled at an out-of-network pharmacy.

Your share of the cost when you get a *one-month* supply of a covered Part D prescription drug:

	Retail cost-sharing (in-network) (up to a 30-day supply)	Mail-order cost-sharing (up to a 30-day supply)
Cost-Sharing Tier 1 (Preferred generic drugs)	\$10 copay	\$10 copay
Cost-Sharing Tier 2 (Generic drugs)	\$10 copay	\$10 copay
Cost-Sharing Tier 3 (Preferred brand drugs)	\$25 copay	\$25 copay
Cost-Sharing Tier 4 (Non-preferred brand drugs)	\$50 copay	\$50 copay
Cost-Sharing Tier 5 (Specialty drugs)	\$50 copay	\$50 copay
Cost-Sharing Tier 6 (Select care drugs (certain vaccines and anti-opioid drugs))	\$0 copay	\$0 copay

Section 5.4 A table that shows your costs for a long-term (90-day) supply of a drug
--

For some drugs, you can get a long-term supply (also called an “extended supply”) when you fill your prescription. A long-term supply is up to a 90-day supply. (For details on where and how to get a long-term supply of a drug, see Chapter 5, Section 2.4.)

The table below shows what you pay when you get a long-term up to a 90-day supply of a drug.

- Please note: If your covered drug costs less than the copayment amount listed in the chart, you will pay that lower price for the drug. You pay *either* the full price of the drug *or* the copayment amount, *whichever is lower*.

Your share of the cost when you get a long-term supply of a covered Part D prescription drug:

	Retail cost-sharing (in-network) (up to a 90-day supply)	Mail-order cost-sharing (up to a 90-day supply)
Cost-Sharing Tier 1 (Preferred generic drugs)	\$30 copay	\$20 copay
